Dose  
2 ml per Litre

Available packings : 200 ml, 400 ml, 1 Ltr & 5 Ltr.

# BVG AGROW MAGIC

BVG Agrow Magic enhances the ability of crops to absorb soil water and nutrients. The result is an increase in agricultural production. Also improves crop quality. Sugarcane, Maize, Soybeans and certain types of crops are used to make Agrow Magic. Agrow Magic is an environment friendly medicine that is completely chemical free. It was completely biodegradable.

## Features

- Nano technology is used to make Agrow Magic.
- Crops grow faster.
- Crops mature evenly and uniformly.
- Increases the ability of crops to absorb fertilizers and water.
- Increases photosynthetic activity of crops.
- Increases sugar (Brix) content in crops.
- Crop resistance increases with climate change.
- Increases the ability of crops to absorb water and nutrients from the soil. At the same time, the ability of crops to absorb carbon dioxide from the air and energy from sunlight increases. This leads to an increase in agricultural production.
- Accelerates photosynthesis of crops. This increases the chlorophyll in the leaves. As a result, crops become stronger and their immunity increases.
- Improves quality by increasing fruit size. Increase in size and quality leads to increase in agricultural production.

## Dosage

- Spray : 2 ml per 1 liter of water
- Drenching : 400 ml per 1 acre

## How to Use

- Water pH used for spraying should be controlled up to 5.5.
- Do not Spray or Drenching before 10 am and after 4.30 pm. Do not spray or Drenching in hot sun.
- If you want to release by drip or drenching , give application after 4:30 pm.
